| <b>Materials</b>                     | Core material: Aluminium<br>Surface material: Polyester lacquer                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Ergonomy</b>                      | The 1.3" diameter enables the rail to be held comfortably and firmly. The projection of 2" from the wall makes it easy to take hold of the rail.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Warranty</b>                      | Pressalit makes a commitment to remedy material and manufacturing defects for a period of five years from the invoicing date.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Cleaning</b>                      | This product should be cleaned with hot water or a mild cleaning solution. Do not use chlorine based or corrosive cleaners as it may result in the surface being damaged.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
