| <b>Cleaning</b>    | <p>The product is to be cleaned with hot water or a mild soapy cleaning agent. Do not use chlorine based, corrosive or abrasive cleaners as it may result in the surface being damaged.</p> <p>The following cleaning agents have been tested by Pressalit and may be used, as long as they are diluted according to the instructions on the container.</p> <p><b>DISINFECTANTS:</b><br/> Clinimax Difficil-S<br/> Erisan OXY+<br/> Sprit (husholdningssprit)<br/> Suma Bac D10<br/> Virkon<br/> Rodalon Desinfektionsspray<br/> Lysoformin Spezial<br/> CaviCide<br/> Sufanios Premium<br/> Tvättssprit 70%<br/> Oxyplus-acid 2% (Diversey)<br/> WipeClean UniversalCleaning<br/> Chlorine Disinfection Wipes</p> <p><b>NON-DISINFECTANTS:</b><br/> Suma Star free D1<br/> Taski 100<br/> Taski 200<br/> Milizid Citro</p> <p>The product must be wiped down with a soft rag wrung out in clear water immediately after cleaning, as some materials may otherwise be discolored and stained, and the surface coating may deteriorate.</p> <p><b>DECALCIFICATION OF ALUMINUM PARTS:</b><br/> Pressalit recommends that chalky deposits be removed from wall tracks and other aluminum parts using a solution of three parts 30% acetic acid to seven parts tap water. When the aluminum parts have been washed down with this solution, the parts must be wiped over with a damp cloth wrung out in clear water.</p> |
| <b>WEEE</b>        | Please enquire of your local Pressalit subsidiary or distributor (in countries where there is no subsidiary) that will arrange for recycling of electronic waste in accordance with the WEEE directive.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
