Cleaning	For cleaning the wash basin, use hot water and a mild soapy cleaning agent. Make sure that the product is wiped down with a soft rag wrung out in clear water immediately after cleaning. For disinfecting the wash basin, the following agents can be used: Sodium hydroxide 5% Acetic acid solution 10% Ethanol solution 70% Sodium hypochlorite 5%, active chlorine Sodium chloride 170g/l, diluted to 50%. Make sure that the product is wiped down with a soft rag wrung out in clear water immediately after disinfection. NB! Do not use abrasive cleaning agents, as this will cause damage to the surface of the wash basin.
WEEE	Please enquire of your local Pressalit subsidiary or distributor (in countries where there is no subsidiary) that will arrange for recycling of electronic waste in accordance with the WEEE directive.
