| <b>Product description</b>           | <p>Pressalit offers a wide variety of changing tables designed for use in daycare facilities. The tables are available in several sizes and models, either free standing or wall-hung. The fold away feature in wall-hung tables is useful where space is limited. The wall-hang tables with low start are essential for daycare or preschool facilities. Even toddlers can climb onto the table themselves, without the staff lifting them.</p> <p>Changing table, wall-mounted, low start, 31.5" x 55.1".<br/>         With motor and transformer, height adjustable from 11.8" - 39.4", with hand control and safety stop function.<br/>         Molded worktop, incl. 2 wire baskets.<br/>         Materials: ABS plastics, synthetic acrylic and powder-lacquered steel.<br/>         Excl. fixing kit.</p> |
| <b>Adjustability</b>                 | Height adjustable                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| <b>Materials</b>                     | Lifting unit and baskets: Powder-coated steel.<br>Countertop: ABS with acrylic.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Ergonomy</b>                      | The smooth height adjustment ensures that it is always possible to set the table at an ergonomically correct height.<br>The table descends to a very low position, which offers the advantage that toddlers can easily climb up and down themselves. Thereby unnecessary lifting is avoided.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
