

PRESSALIT®

Product Item number	Control panel with display for INDIVO Packs RK1049
Product description	EAN:5708590396798  The control panel features intuitively placed soft buttons (it does not have a touch screen), optional favourite table positions, and the ability to toggle between four references. Control panel with display for customized travel
Features	Option of fixed height settings. The control allows you to limit the travel range. So instead of lifting units going from 0- 300 mm, for example it could be from 0-274 mm. A limitation that is stored in the control. This limitation can help the user to easier align the table with an adjacent surface.
