Our designer found inspiration in the rays (all members of this species of fish have Raja as their first name - in Latin), and the Raja toilet seat is just as grand and elegant as its living pattern. The unique form and ample dimensions make the seat sort of float above the pan. It looks great - and it means that the Raja suits most pans. The seat has soft close and lift-off function for easy cleaning.

Cleaning	Use a mild soap solution to clean the seat. Please take care that the seat and hinges are not left damp. Dry off any residual water or cleaning agent with a soft cloth. Avoid contact of the seat and hinges with abrasive, corrosive or chlorine-based cleaners, as these may cause damage or lead to flash rust. Therefore, when cleaning the bowl, make sure that the seat and cover are kept in an upright position until all cleaning agent has been flushed away.
