| <b>Product description</b>             |  <p>PLUS wall tracks are used for mounting of support arms, shower seats and sink brackets, and allows sideways adjustment of these products.<br/>See below a selection of products for fitting to the wall track.</p> <p>PLUS wall track, 118.1", for horizontal mounting.<br/>The cover plate hides bolts, wires and simplifies cleaning.<br/>Materials: Aluminium and polystyrene.<br/>Excl. mounting kit.</p> |
| <b>Adjustability</b>                   | Fixed mounting                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Ergonomy</b><br><br><b>Features</b> | <p>The track distributes the weight of the individual bathroom product, for example a sink bracket, along its entire length. The products can be adjusted and locked on to the track with intuitive locking functions.</p> <p>The horizontal track makes it possible to shift the product along the wall to generate extra space as needed. The front cover plate conceals mounting bolts and any cables.</p>                                                                                        |
| <b>Warranty</b>                        | Pressalit makes a commitment to remedy material and manufacturing defects for a period of five years from the invoicing date.                                                                                                                                                                                                                                                                                                                                                                        |

| <b>Item number</b> | R9830112                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Cleaning</b>    | <p>This product should be cleaned with hot water or a mild cleaning solution. Do not use chlorine based, corrosive or abrasive cleaners as it may result in the surface being damaged.</p> <p>The following cleaning agents have been tested by Pressalit and may be used, as long as they are diluted according to the instructions on the container.</p> <p><b>DISINFECTANTS:</b><br/>CaviCide</p> <p>The product must be wiped down with a soft rag wrung out in clear water immediately after cleaning, as some materials may otherwise be discolored and stained, and the surface coating may deteriorate.</p> <p><b>DECALCIFICATION OF ALUMINUM PARTS:</b><br/>Pressalit recommends that water deposits (Calcium, lime etc.) be removed from wall tracks and other aluminum parts using a solution of three parts of 30% acetic acid to seven parts tap water. When the aluminum parts have been washed down with this solution, the parts should be wiped over with a damp cloth wrung out in plain water.</p> |
