Materials Ergonomy Features Warranty	Steel Brackets are the simple, budget solution for kitchens where it is only occasionally necessary to adjust the height of the worktop or adapt the kitchen layout to a given user. The lift height is adjusted using a spanner. Height adjustment can be performed by one person alone. Available for worktops of any length, the distance between two brackets must however not exceed 800 mm. Adjustable in height over a range of 250 mm. Pressalit makes a commitment to remedy material and manufacturing defects for a period of three years from the invoicing date.
