Materials Ergonomy Features	<p>The wall track is primarily made of 10-micrometre anodized aluminium. The cover plate is made of polystyrene and the ends of the track are capped with ABS polymer.</p> <p>The track distributes the weight of the individual bathroom product, for example a wash basin bracket, along its entire length. The products can be adjusted and locked on to the track with intuitive locking functions.</p> <p>The horizontal track makes it possible to shift the product along the wall to constantly optimize the available space in the bathroom. The front cover plate conceals mounting bolts and any cables.</p>
