| Product Item number | PLUS support arm with integrated counter-balance, 850 mm , left hand operated R391385000 |
| :---: | :---: |
| Colour | VVS: 615883200 <br> NRF:6191161 <br> RSK:8487454 <br> EAN:5708590368870 <br> HMI: 125890 <br> FDA:ILS/D135866 <br> White |
| Product description | All PLUS support arms come with an integrated counter-balance, which ensures a controlled movement between horizontal and vertical positions. <br> Suitable for use with toilet pans projecting 700 mm or floor standing toilets. <br> Replaces discontinued models R3575 og RF575. <br> PLUS support arm, counter-balanced. Projection 920 mm , ergonomically shaped to provide a clear sense of where the support arm ends. Left hand operated. Height adjustable by 240 mm and sideways adjustable. Detachable and foldable. Anthracite cover plate for vertical wall track. <br> Materials: The arms are constructed of 10-micrometre anodized aluminium, with a non-slip gripping surface made of soft SEBS incorporating a glass-reinforced nylon core <br> For fitting to horizontal PLUS wall track (not included). |
| Adjustability | Height and sideways adjustable |
| Adjustment height | 240 mm |
| Product capacity | Maximum load: 150 kg . <br> When the support arm is loaded with 150 kg , each wall fastener in the horizontal wall track is loaded with 44 kg . <br> PLUS support arms have been tested statically with 700 kg (close to the wall), 425 kg (in the middle) and 225 kg (the outermost point). |

| Product | PLUS support arm with integrated counter-balance, 850 mm , left hand <br> operated <br> R391385000 |

| Materials number | The arms are primarily constructed in 10-micrometre anodized aluminium, with a non- <br> slip gripping surface at the end made of soft SEBS and incorporating a glass- <br> reinforced nylon core. <br> The hinge arm is also made of soft SEBS. <br> Internal components and fasteners are primarily made of stainless steel. <br> The hinge barrel is capped with ABS polymer. <br> The oval shape gives an easy and comfortable surface to lean and push against. <br> The end of the support arm is enlarged so that it is easier to pull forward from a <br> sitting position and also provides a clear sense of where the support arm ends. <br> Soft and slip-resistant material that has a warm feel. |
| Features | Folds against the wall. |
| The underside is shaped for the mounting of various accessories. |  |
